

Miche Henteman

The last term of my G10 journey was fun, challenging and sad.

The last term was about doing revision of the whole year work, that is quite alot. We had to sum up our books and study for end exams that wasn't to bad.

The fun part of my last term was spending time with my friend and just enjoying ourselves, but also not forgetting about education, another thing is

When a guy asked the to the matricball. I was ~~sup~~ super excited, but when the night came near I felt a warm feeling

in my tummy that's called "butterflies"; I look fabulous and so did my partner.

When we arrived at the VV hall (Neesie) the word boring was written all over it.

The sad part of the term is when I have to say goodbye to all my friends and teacher, truely going to miss them for these few weeks of holiday.

Overall the whole year of 2012 my
Grade journey was awesome.

Even though there was some negative
things I've focused on the positive and
possible. Another year gaining knowledge and
experience, tears and laughter I call them
memories.

The highlight of my year was when
me and Bianca + 2 other girls from Khenfah
took part in the UN Debating competition
I had a wonderful time and also
learned alot.

In conclusion I'd like to thank ~~the~~
Alliva for everything and the support
as well.
